

Invest to do well... and good

THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

PERFORMANCE
SUMMARY

The Fund generated a return of -12.5% (Class A) for the month ending 31 March 2020 compared to the benchmark which returned -14.7% over the same period.

The COVID-19 pandemic spread from East to West over March, and as the cases surged, countries worldwide began implementing lockdown measures. Concurrently, governments and central banks scrambled to implement sometimes unprecedented measures to alleviate the dire economic impacts. Equities saw their largest one-month decline since the GFC with a number of share markets transitioning from all-time highs to a bear market in less than a month. The ASX 300 ended down -20.8% and MSCI World down a lesser -8.6% (due to a depreciating AUD).

PERFORMANCE
HIGHLIGHT

This depreciation effect was mentioned in our previous newsletter in the context of our international funds' performance through periods of market turmoil. Over March, they declined significantly less than our Australian equity funds. In addition, all but one of our internal funds returned in excess of the MSCI World. Amongst our Australian funds, the performance was more varied with the star performer being the Level 18 Fund managed by Centennial Asset Management.
