

Invest to do well... and good

THE ORAH FUND

FUND DESCRIPTION

The ORAH Fund is a fund of funds aiming to produce risk-adjusted returns in excess of a composite benchmark comprising 50% of the MSCI World and 50% of the ASX 300 Index.

To achieve the Fund's objectives, the investment manager seeks to identify a set of specialist Underlying Funds that possess varied investment styles and strategies. This diversification is expected to result in reduced volatility and more stable returns over time. The Fund's investments are geographically diversified with the Underlying Funds investing in assets held both domestically and abroad.

The ORAH Fund was established in order to benefit charities supporting Jewish related causes, and all management and performance fees charged by the ORAH Fund are donated to charity. Importantly, the donations do not dilute the investment returns to unitholders. This is due to the philanthropy of the managers of the Underlying Funds who do not charge management or performance fees for their services.

FUND FEATURES

Style	Fund of Funds
Investors	Wholesale Clients only
Benchmark	50% of the MSCI World Net Total Return Index (AUD Unhedged) and 50% of the ASX 300 Accumulation Index
Inception date	21 December 2016
Application price at month end	A\$1.0228 (class A); A\$1.0017 (class B)
Redemption price at month end	A\$1.0146 (class A); A\$0.9937 (class B)
FUM at month end	A\$21.2m
Management fee (donated to charity)	1.025% p.a. of NAV (incl. GST net of RITC)

PERFORMANCE
SUMMARY

The Fund generated a return of +0.38% (Class A) for the month ending 31 October 2020 compared to the benchmark which returned +0.41% over the same period.

Global equities declined -1.07% (as measured by the MSCI World) as coronavirus lockdowns were re-established across numerous European countries and U.S. states in light of a continued acceleration of infections. Also impacting returns were the failure of the U.S. government to agree on a new economic stimulus package, the prospect of a closer than anticipated Presidential election, the ECB not introducing further stimulus measures, as well as several vaccine trials being delayed (including the now-announced Pfizer trial). A rebound in U.S. corporate activity and economic growth – Q3 saw a 33% annualised expansion following a similar sized contraction – as well as the accelerating growth of the Chinese economy were only able to limit this decline. Australian equities bucked the global trend with the ASX 300 gaining +1.89% driven by a Federal Budget that was more stimulatory than anticipated and by indications of further monetary policy easing from the RBA.

PERFORMANCE
HIGHLIGHT

We would like to highlight the performance of the Pengana Alpha Israel Fund, which strongly outperformed global equities over October. The fund invests in listed Israeli companies that produce cutting edge – both high and low tech – technologies. These companies are characterised by solid intellectual property development coupled with strong global distribution. They operate in industries and technology sectors which are either limited, or do not exist, in the Australian marketplace, such as semiconductors, solar, water treatment, aerospace and electronic defence, and cyber security.

CHARITABLE DONATIONS TO DATE:

\$840,226

SINCE INCEPTION: JAN 2017

DATE OF NEXT DONATIONS: JAN 2021
